

### Vakgroep Plantenfysiologie

BRINKMAN, drs. F. G., drs. L. H. W. VAN DER PLAS en dr. J. D. VERLEUR  
*Pyridine nucleotide levels in potato tuber tissue and its mitochondrial fraction after wounding.*  
In: Zeitschrift für Pflanzenphysiologie, 68 (1973), blz. 364-372

GERBRANDY, drs. Sj. J. en ANGELI DOORGEEST  
*Potato phosphorylase isoenzymes.*  
In: Phytochemistry, 11 (1972), blz. 2403-2407.

VELDE, drs. H. H. VAN DER  
*The natural occurrence in red algae of two phycoerythrins with different molecular weights and spectral properties.*  
In: Biochimica et Biophysica Acta, 303 (1973), blz. 246-257.

VELDE, drs. H. H. VAN DER  
*The use of phycoerythrin absorption spectra in the classification of red algae.*  
In: Acta Botanica Neerlandica, 22 (1973), blz. 92-99.

WAGENAAR, mej. dr. S. en mej. T. F. LUGTENBORG  
 *$\alpha$ -Isoamylases of rye seeds.*  
In: Phytochemistry, 12 (1973), blz. 1234-1247.

KUILMAN, prof. dr. L. W.  
*Worstelen om de naam.*  
Afscheidscollege, Amsterdam, 1973, 28 blz.

### SUBFACULTEIT DER GEOLOGIE EN GEOFYSICA

#### Fysische geografie en kwartairgeologie

ENGELEN, dr. G. B.  
*A limnological reconnaissance study of Lago di Braies („Pragser Wildsee“), Dolomites.*  
In: Communications Institute of Earth Sciences, Series A, no. 1 (1972), 63 blz.  
*A catalogue of hydrological research projects over the period 1966-1972 in the Hydrology Program of the Institute of Earth Sciences, Amsterdam.*  
In: Communications Institute of Earth Sciences, Series A, no. 2 (1972), 35 blz.  
*Runoff processes and slope development in Badlands National Monument, S. Dakota*  
In: Journal of Hydrology, 18 (1973), blz. 55-79.  
*Two-year cycles in soil moisture recharge, snowpack and streamflow in relation with atmospheric conditions.*  
In: UNESCO/WMO Symposia on the role of snow and ice in hydrology, Banff, Alb. Canada (1972).  
*Soil moisture in Alpine mountain slopes of Colorado and New Mexico.*  
In: UNESCO/WMO Symposia on the role of snow and ice in hydrology, Banff, Alb., Canada (1972).
