

W. van Dijk en D. H. van den Eijnden

Cytidine 5'-phosphate-N-acetylneuraminic acid hydrolase in calf kidney: Properties and subcellular distribution; in: *Biochem. Soc. Trans.*, 2, (1974), blz. 642-645.

D. H. van den Eijnden

The subcellular localization of CMP-NANA synthetase in calf brain; in: *J. Neurochem.*, 21, (1973), blz. 949-958.

Sialoglycoprotein biosynthesis in brain; proefschrift, V.U., 1974.

Continues flow thin layer chromatography: A new technique; in: *Anal. Biochim.*, 37, (1974), blz. 321-322.

D. H. van den Eijnden en W. van Dijk

Properties and regional distribution of cerebral CMP-N-Acetylneuraminic acid: glycoprotein sialyltransferase; in: *Biochim. Biophys. Acta*, 362, (1974), blz. 136-149.

W. Ferwerda en J. Stepan

Study on the mechanism of induction of alkaline phosphate activity in rat liver after bile flow obstruction; in: *Hoppe Seyler's Z. Physiol. Chem.*, 354, (1973), blz. 1462-1472.

W. Ferwerda, T. M. Feltkamp-Vroom en J. W. Smit

Collagen and glycoprotein components derived from bovine tubular basement membrane: chemical and immunological properties; in: *Biochem. Soc. Trans.*, 2, (1974), blz. 640-642.

W. Ferwerda, J. W. Smit en T. M. Feltkamp-Vroom

Immunological properties of the collagen and glycoprotein component(s) derived from bovine tubular basement membrane; in: *Abstracts 15e Fed. Verg. Med. Biol. Ver.*, Nijmegen. (1974), blz. 172.

W. Ferwerda en W. van Dijk

Analyses of the heteropolysaccharide chain(s) derived from bovine tubular basement membrane; in: *Abstracts VIIth Int. Symp. Carbon. Chem.*, Bratislava., (1974), blz. 216.

W. Ferwerda, J. F. M. Meijer, D. H. van den Eijnden en W. van Dijk

Epithelial basement membrane of bovine renal tubuli. Isolation and chemical characterization; in: *Hoppe Seyler's Z. Physiol. Chem.* 355, (1974). blz. 976-984.

J. Heijlman

The inhibitory action of glycosaminoglycans on brain sialidase; in: *Biochem. Soc. Transactions*, 2, (1974), blz. 638-639.

A. van Nieuw Amerongen en P. A. Roukema

GP-350, a sialoglycoprotein from calf brain: its subcellular localization and occurrence in various brain areas; in: *J. Neurochem.*, 23, (1974), blz. 85-89.

A. van Nieuw Amerongen, W. Ferwerda en P. A. Roukema

Incorporation of D-[³H]glucosamine into the sialoglycoprotein GP-350 of adult rat brain; in: *J. Neurochem.*, 23, (1974), blz. 405-409.
