

Fysiologie

W. Band, W. J. A. Goedhart en A. A. Knoop

Vasculaire veroudering bij de rat; in: *Ned. Tsch. v. Gerontol.*, 4, (1973), blz. 130-137.

G. C. van den Bos, G. Elzinga, N. Westerhof en M. I. M. Noble

Problems in the use of indices of myocardial contractility; in: *Cardiovasc. Research*, 7, (1973), blz. 834-848.

G. C. van den Bos, J. Dolfing, F. Nassenstein, B. Heeroms, R. M. Buitenweg, W. Engel en F. K. Dijkema

A comparatively inexpensive implantable miniature pressure transducer; in: *Cardiovasc. Research*, 8, (1974), blz. 290-295.

G. Elzinga en N. Westerhof

End-diastolic volume and source impedance of the heart; in: *Ciba Foundation Symposium* 24, *The Physiological Basis of Starling's Law of the Heart*. Elsevier, Amsterdam-London-New-York, (1974), blz. 241-255.

G. Elzinga, N. Westerhof, G. C. van den Bos en P. D. Verdouw

Transfer of cardiovascular forces through the body; in: *Med. and Biol. Engng.*, 12, (1974), blz. 322-327.

G. Elzinga, R. van Grondelle, N. Westerhof en G. C. van den Bos

Ventricular interference; in: *Amer. J. Physiol.*, 226, (1974), blz. 941-947.

W. J. A. Goedhard, W. Band en A. A. Knoop

Cardiovascular ageing measured by means of ballistocardiography and other non-invasive methods.

Supplement to „Modern Geriatrics”, Abstracts of papers of the VII Europ. Congress of Clinical Gerontology, blz. 10-14. september 1975, Manchester, blz. 20-21.

R. van Grondelle, N. Westerhof en P. Sipkema

Review of the work of M. G. Taylor.

Progress Report Fysiologisch Laboratorium FUPREP nr. 7302, (1973), 26 blz.

A. J. G. Spoelstra

The pressure-volume-flow relationship of the lung in healthy and ill neonates; in: *Arch. Int. Physiol. Biochem.*, 82, (1974), blz. 368-370.

P. G. A. Versteeg, G. Elzinga, P. Sipkema, L. Swamy en N. Westerhof

The influence of changing physical load on aortic bloodflow; in: *Arch. Int. Physiol. Biochem.*, 82, (1974), blz. 376-381.

N. Westerhof en G. Elzinga

The relation between end-diastolic volume and source impedance of the left ventricle; in: *Arch. Int. Physiol. Biochem.*, 82, (1974), blz. 326-329.
