

Vakgroep farmacochemie

G. van den Berg

1,3-Indandionen; in: Chem. Weekbl. 44 (1974), blz. F12.

G. van den Berg

2-Aryl-1,3-indandiones; proefschrift V.U. Amsterdam 1974.

G. van den Berg, T. Bultsma en W. Th. Nauta

Inhibition of prostaglandin biosynthesis by 2-aryl-1,3-indandiones; in: Biochem. Pharmacol. 24 (1975), pp. 1115-1119.

G. van den Berg, T. Bultsma, R. F. Rekker en W. Th. Nauta

Structure-activity relationships of 2-aryl-1,3-indandiones; in: Eur. J. Med. Chem. 10 (1975), pp. 242-246.

G. van den Berg en W. Th. Nauta

Effects of anti-inflammatory 2-aryl-1,3-indandiones on oxidative phosphorylation in rat liver mitochondria; in: Biochem. Pharmacol. 24 (1975), pp. 815-821.

G. van den Berg en W. Th. Nauta

Inhibition of prostaglandin biosynthesis by a series of anti-inflammatory 2-aryl-1,3-indandiones; in: Abstracts IVth International Symposium on Medicinal Chemistry, Noordwijkerhout (1974), p. 28.

G. van den Berg, R. F. Rekker en W. Th. Nauta

Stabilization of bovine serum-albumin against heat denaturation by 2-aryl-1,3-indandiones; in: Eur. J. Med. Chem. 10 (1975), pp. 408-411.

G. van den Berg, D. Wolters en W. Th. Nauta

Further studies concerning the effects of 2-aryl-1,3-indandiones on oxidative phosphorylation in rat liver mitochondria; in: Biochem. Pharmacol. 24 (1975), pp. 2149-2152.

H. van der Goot

Heterocyclische verbindingen; in: Chem. Weekbl. 46 (1975), blz. 12.

A. F. Harms, W. Hespe, W. Th. Nauta, R. F. Rekker, H. Timmerman en J. de Vries

Diphenhydramine Derivatives: Through Manipulation toward Design; in: Drug Design Vol. VI, E. J. Ariëns (editor), Academic Press, New York (1975), pp. 1-80.

L. Meems en J. Zaagsma

Influence of protein binding on specific and non-specific properties of β -adrenergic blocking agents; in: Abstracts 16e Federatieve Vergadering, Utrecht (1975), p. 288.

J. F. M. Meijer

N-aminoalkyldiarylketimines: synthesis and some biological properties; proefschrift V.U. Amsterdam 1975.
