

Dr. D. H. van den Eijden, B. Dieleman, W. E. C. M. Schiphorst
Sialyltransferase in vitro; Abstr. Fourth Int. Symp. on Glycoconjugates, Woodshole. Mass. sept. 26th-oct. 1st, 1977, p. 30.

Dr. D. H. van den Eijden, P. Stoffyn, A. Stoffyn, W. E. C. M. Schiphorst
Specificity of Sialyltransferase: Structure of α_1 -acid glycoprotein sialylated in vitro; A new methodology for the determination of the structure of the linkage formed by glycosyltransferase action on galactosyl-oligosaccharide protein acceptors; in: Eur. J. Biochem., 81, pp. 1-7.

Dr. W. Ferwerda, C. M. I. van Loon, T. M. Feltkamp-Vroom
The specificity of the Antigenic Determinants of Bovine Renal Tubular Basement Membrane: in Biology and Chemistry of Basement Membranes; Proceedings of the First Int. Symp. on Biology and Chemistry of Basement Membranes; New York, San Francisco-London, N. A. Kefalides ed. Academic Press, pp. 403-411.

Dr. J. Heijlman, C. M. Blok, Dr. W. Ferwerda
Metabolism of Free Sialic Acid, CMP-Sialic Acid, and Bound Sialic Acid in Rat Brain. Proceedings of the 4th Int. Symp. on Glycoconjugates, in press.

R. W. Jeanloz, J. F. Codington, Dr. D. H. van den Eijden, N. A. Evans
The chemical structure of epiglycanin, a glycoprotein of the cell membrane of the ascitic TA₃-Ha mouse cancer cell; Abstr. IXth Int. Symp. on Carbohydr. Chem., 10-14 april London, 1978, Abstr. F₄, p. 365.

Dr. J. J. W. Lisman, Dr. G. J. M. Hooghwinkel, Dr. B. Overdijk
Isolation of brain lysosomes. A new zonal centrifugation technique; Abstr. 19e Fed. Verg., 1978, p. 321.

Dr. J. J. W. Lisman, Dr. B. Overdijk
Affinity chromatography of bovine brain β -hexosaminidases with substrate as affinity ligand; in: Hoppe-Seyler's Z. Physiol. Chem. 359 (1978), pp. 1019-1022.

Dr. B. Overdijk, G. J. M. Hooghwinkel, Dr. J. J. W. Lisman
Isolation of lysosomes from bovine brain tissue. A new zonal centrifugation technique; in enzymes of Lipid Metabolism, eds. S. Gatt, L. Freysz en P. Mandel, Plenum Publ. Co., 1978, pp. 601-610.
