

*1 december 1978*

Prof. dr. D. A. Jones, University of Hull, over: „Genetical and Ecological Aspects of Cyanogenesis in Plants”.

*9 maart 1979*

Dr. C. J. P. Grimmlikhuizen, European Molecular Biological Organisation Laboratory, Heidelberg, over: „Morphogenetic Substances in Hydra”.

*16, 17 en 18 mei 1979*

Dr. J. M. Anderson, Dept. of Biological Sciences, University of Exeter, over:

1. „Animal/Microbial interactions in soil biological processes”.
2. „Symbiotic associations and nutrition in higher termites”.
3. „Slide-show: De MULU-expeditie naar S'arawak”.

*15 juni 1979*

Dr. E. P. Bakker, Ruhr Universiteit Bochum, W.-Duitsland, over: „K<sup>+</sup> transport in bacteriën”.

### **Geologie en fysische geografie**

*27 februari 1979*

Prof. dr. J. L. R. Touret, Parijs, over „Fluid inclusions in igneous and metamorphic rocks”.

*16 maart 1979*

Prof. dr. K. Pozaryska, Poolse Akademie van Wetenschappen, over: „Paleogene paleobiogeography of Northern Europe”.

*20 april 1979*

Dr. D. J. Vaughan, Birmingham, over „Mineralogy and chemistry of thiospinels”.

*18 mei 1979*

Prof. dr. J. G. Sclater, Massachusetts Institute of Technology, over: „Thermal models and paleobathymetry reconstructions of subsiding continental margins” en „The Pannonian Basin. An example of Early Neogene extension”.
